Spring Fever Product Line

Launching March 20, 2009

Our Spring Fever line includes ingredients high in oleic and linoleic acids, and rich in essential fatty acids with a refreshing and vibrant aroma of fresh lemons, pink grapefruit and lime, kissed with a splash of spearmint. Spring Fever is sure to soften and delight your skin, all while captivating your senses.

Citrus Mint Acai Body Glow

The moisturizing oils of sweet almond and apricot kernel, combined with the ingredients of sugar, lemon peel and acai flakes, gently exfoliate while the essential oil blend of citrus oils with a hint of spearmint will invigorate your mind.

Lemonmint Body, Bath & Massage Elixir

The combination of apricot kernel, sweet almond and jojoba create a body oil that is high in oleic and linoleic acid and Vitamin E. This emollient blend soothes dry and inflamed skin, relieves itching, helps the skin retain elasticity and is great for all skin types, including sensitive and mature. Top it off with a crisp, lemony fresh aroma that reminds you of a sunny spring day.

Citrus Body Meringue

The smooth and moisturizing properties from coconut, grapeseed, aloe and glycerin leaves your skin feeling nourished hydrated and protected. To help prevent dry skin, it is recommended that you apply a moisturizer within 3 minutes of getting out of the bath or shower. That is how long it takes water to evaporate from the skins outer layer.

**This line contains photosensitizing essential oils and should not be used within 4 hours of sun exposure.

***This line will be available for Retail and Wholesale use the first day of spring, March 20, 2009.

Cactus & Ivy is a cruelty-free and vegan, natural products bath and body products manufacturer, utilizing specialty ingredients to revitalize and restore the skins normal balance. 60% of the products applied topically to the skin are absorbed and since the skin is the body's largest organ, it's no surprise consumers want to incorporate personal care products with natural ingredients into their lives. We are committed to offering products free of artificial fragrance, color and flavor.

Cactus & Ivy has never tested its products on animals, nor will we ever. In addition, we only purchase raw materials from companies that adhere to the same standard. Cactus & Ivy signed the standard with the Coalition for Consumer Information on Cosmetics and the statement of assurance with PETA's Caring Consumer program.

In addition to being animal and eco-friendly, we are registered with the [FDA Voluntary Cosmetic Registration Program](#) (VCRP), a post-market reporting system. We believe in the FDA and its mission to protect consumers, while also helping cosmetic manufacturers and distributors make informed decisions.

FDA Voluntary Cosmetic Registration Program #E1002787
